HEAVY METAL CONTENT STATEMENT – CARBON BLACK N330

The heavy metal content of the above mentioned grade of Carbon Black, grade N330, is in accordance with EU Resolution AP (89) 1 and is as below.

Element	Analysis	Limit
Arsenic	<0.0005	0.01%
Barium	<0.0005	0.01%
Cadmium	<0.0005	0.01%
Chromium	<0.0005	0.1%
Mercury	<0.0005	0.005%
Lead	<0.0005	0.01%
Antimony	<0.0005	0.05%
Selenium	<0.0005	0.01%

The levels of extractable heavy metals in the tested sample of Carbon Black are well within the specification of the Resolution AP (89) 1.

Valetime Limited (Valetime Group), May 2005.

The above is based upon the results of tests performed on representative samples of product offered by us and supplied directly from the producer. Such tests were undertaken by RAPRA Technology Limited on samples supplied by the producer, Kremenchug Carbon Black Plant. The above confirmation is solely based on the test results and details of product origin provided to us and is subject to the test methods determined and advised, together with any other conditions, caveats and disclaimers mentioned to us. Such information forms part of this confirmation and if not here attached is available for inspection.
